DATASHEET | DS-T02B

Cable Stripper – T02

CABLE DIAMETERS FROM 5.0 TO 8.1MM

LIFETIME GUARANTEE

The OPT Services Cable Preparation Tool (T02) is a precision instrument employing a pair of modular cassettes that clamp over a cable to safely and accurately slit the sheath exposing the individual elements inside.

All our tools are designed and manufactured in the UK to very high standards and tested to provide a precise and long-lasting service.

Tools using our rotary blades come with a lifetime guarantee on blades. In addition, we offer a handle replacement price promise which covers even accidental damage should the handle be broken.

Features & Benefits

- Colour coded user interchangeable cassette pairs for different cable types.
- Cable diameters from 5 - 8.1mm, depending on chosen cassettes.
- Compact, ergonomic design with wrist strap for safety working at height.
- High quality construction and finishing hand assembled in the UK.
- Precisely calibrated blade guarantees no damage to internal cable.
- Designed to last over 500 cuts – no adjustments needed during life of tool.
- Moulded in hard wearing red glass filled nylon.
- Anodised aluminium & stainless steel internal components.
- Lifetime guarantee on rotary cutting blades.
- Return and replacement promise available for handles.

Part Numbers *(Cassette included)*
